We find it hard to believe that in an enlightened world people are still being treated in this way. Bur it also had its beneficial side effects. It's a process that sacrifices vigor for delicacy and succulence, and one that's got to be changed. Archivedfromtheoriginalon9OctoberPersianGulfStudies. With the advent of chemical castration, physical castration is not generally recommended by the medical community unless medically necessary or desired, [citation needed] though some have undergone the procedure voluntarily. The book is a feminist analysis, written with a mixture of polemic and scholarly research. Most, he says, asked to stop because they believed they were cured, "A bit like people do with antibiotics – they stop taking them as soon as they feel better.
