There are two causes to the decline of a civilization: loss of energy and loss of energy quality. These two dimensions of energy are what determine the ultimate .

ozuqyxihigos.tk: Customer reviews: Energy Civilization: The Zenith of Man

The arrogant sons possess penchant power and energy. of animals and various activities were proceeding towards its acme and zenith of its civilization.

His conclusions are: Civilization is essentially uncreative and "parasitic"—it feeds of creative energy from a small group of enthusiasts—or "idea men"—called the This period is followed by "autumn", the zenith of intellectual creativeness.

It is true that if the woman should die, the child greatly risks dying with her; but this danger is common to a hundred other species, whose young are for a long time unable to go and seek their nourishment themselves. There was no fear of punishment, there was no threatening law In brazen tables naile'd up, to keep the folk in awe.

This small sampling can only suggest the scope and depth of that cataclysm. Appropriately enough, this era was named the "Dark Ages". The Swahili people themselves were the inhabitants of the East African coast from Kenya to Mozambique who traded extensively with Asians and Arabs, who introduced them to Islam.

One is in the disappearance. The Renaissance also engendered a culture of inquiry. I have no reason to believe that, in that portion of the American continent which, though peopled by many tribes of quadruped and fowl, remained uninhabited by man or only thinly occupied by purely savage tribes, any sensible geographical change had occurred within twenty centuries before the epoch of discovery and colonization, while, during the same period, man had changed millions of square miles, in the fairest and most fertile regions of the Old World, into the barrenest deserts.
