As if this momentous shift were not enough, it was accompanied by. The novel continues with other exciting missions that challenge the future of mind travel. Using stories instead of stale statistics, Wise weaves a narrative that is at once readable and scholarly, analytical, and accessible. From their first contacts, European traders kidnapped and bought Africans. It makes a convincing case for pre-Columbian contacts between Africa and America before the era of the slave trade. This is far from true; sex trafficking is prominent all across the world on a massive scale and is the new form of slavery. The raw materials would subsequently be transported back to Europe to complete. It is known that slavery is a system under which people are treated as property Continue Reading.
